SUMMARY

Motivated and detail-oriented Flutter developer with a strong foundation in building cross-platform mobile applications. Experienced in implementing scalable architecture, seamless UI/UX, and robust state management. Proven ability to deliver quality products, manage project deadlines, and adapt to diverse environments. Passionate about continuous learning and mobile technology.

EXPERIENCE

Mobile Developer - Flutter | Raise Right | Maadi - On Site | July 2025 - Present

- Developed the EduMarket App using Flutter, integrating GraphQL for efficient data management, enhancing user experience across platforms.
- Strengthened app security by implementing R8 code encryption, ensuring robust protection of sensitive data.
- Collaborated with cross-functional teams to deliver high-quality applications on schedule, leveraging agile methodologies.
- Conducted comprehensive code reviews bi-weekly, utilizing GitHub tools to ensure adherence to coding standards and enhance app efficiency by 15%.
- Implemented automated mobile testing protocols with Appium to streamline quality assurance, leading to faster bug identification and improved application reliability.

Mobile Developer - Flutter | Stock | Egypt - Remote | June 2025 - Present

- Developed and maintained a single-vendor wholesale marketplace platform serving traders, sales representatives, and supervisors.
- Refactored legacy codebase and added new features, improving system performance and maintainability.
- Published regular updates and enhancements, ensuring platform stability and better user experience.

Flutter Developer | Fishtail | Egypt-Remote | November 2024 - July 2025

- Integrated mapping services used by 800+ active users, maintained stable Firebase synchronization with ~99% uptime, and implemented Stripe payment processing for recurring transactions.
- Applied Cubit state management and Clean Architecture, improving code maintainability and reducing integration issues by around 20%.
- Leveraged Cubit and Clean Architecture to enhance app responsiveness (~10% faster load times), while integrating Stripe to process secure in-app payments with no reported issues.

Flutter developer | All Safe Company (Software House, Programming & Cyber security) | Nasr City - On Site | December 2023 - February 2025

- Developed and maintained cross-platform mobile applications using Dart and Flutter, improving app stability and performance for over 1,000+ active users.
- Published 4 applications on the Apple App Store and Google Play, achieving 500–1,000+ downloads each with an average rating of 4.5★.
- Built and contributed to projects in cryptocurrency, e-commerce, and reservation systems, reducing feature delivery time by 20% through reusable code components.
- Collaborated with cross-functional teams of up to 6 members, ensuring on-time delivery and improving overall team efficiency by 15%.

PROJECT

Edu Market | Raise Right | campsite.bio/omarmaamoun6 | November 2024 - Present

- GraphQL, and Dart, enabling 1,500+ active users to browse institutions, read reviews, and compare curriculum offerings with 99% crash-free sessions.
- Engineered a multi-faceted support system within the app, publishing 100+ specialized articles and guides for parents and equipping 500+ students with tools that improved academic confidence by 20%.
- Integrated a secure and user-friendly booking and payment system for educational services, processing 200+ monthly transactions and fostering partnerships with 10+ leading institutions to deliver exclusive discounts.

Suplex | All safe | June 2024 - Present

- Developed a social media application similar to TikTok, enabling users to create and share short-form videos.
- Implemented live streaming functionality with interactive features for real-time audience engagement.
- Integrated virtual gifts and in-app purchases, enhancing user interaction and supporting monetization.

Stock (B2B) | Stock | campsite.bio/omarmaamoun6 | November 2022 - Present

- Developed Stock 2B, a single-vendor wholesale application designed to streamline the purchasing process for traders.
- Integrated geolocation and Flutter Maps to verify customer locations and enhance order accuracy.
- Implemented secure payment processing, token refresh mechanisms, and real-time notifications, ensuring reliability and trust.

Fishtail | Fishtail | campsite.bio/omarmaamoun6 | November 2024 - July 2025

- Developed a swimming-focused mobile app with event management, technique tutorials, and real-time for premier swimming events; architected using performance ratings; enabled in-app discovery and registration Cubit state management, Clean Architecture principles, and integrated Stripe for secure payments.

مشاور ثقیل | freelance

| apps.apple.com/eg/app/%D9%85%D8%B4%D9%88%D8%A7%D8%B1-%D8%AB%D9%82%D9%8A%D9%84/id6740751681
| December 2024 - February 2025

- **Developed a user-friendly mobile application for cargo transportation**, connecting drivers with assigned freight tasks and enabling customers to request and select preferred drivers.
- **Implemented Dio for efficient network handling, Bloc for seamless state management, and MVVM architecture**, ensuring scalability, maintainability, and responsive performance.
- **Streamlined freight logistics and improved convenience**, enhancing the overall experience for both drivers and customers.

Adel Store | All Safe | campsite.bio/omarmaamoun6 | December 2024 - February 2025

- **Developed a single-vendor e-commerce application for curated mobile phone accessories**, serving over **500+ active users monthly**.
- **Implemented advanced filtering and search capabilities** that improved product discovery efficiency by **30%**.
- **Integrated secure payment processing with a streamlined checkout flow**, supporting **100+ successful transactions per month**.
- **Optimized UI/UX and applied a maintainable architecture**, reducing reported user issues by **20%**.

Smart Trade App | All Safe | campsite.bio/omarmaamoun6 | June 2024 - November 2024

- **Enabled real-time currency price monitoring**, providing updates with less than **1-second latency** to support timely trading decisions for **500+ active users**.
- Engineered and deployed subscription-based trading packages utilizing Dart and Flutter, enabling seamless access to services managed by analysts and contributing to increased user retention.
- **Integrated secure in-app subscription system and intuitive market dashboard**, supporting **100+ successful transactions per month** and increasing user engagement by **20%**.

Insta- Order App | All Safe | campsite.bio/omarmaamoun6 | February 2024 - October 2024

- **Developed a multi-vendor e-commerce application** enabling on-demand delivery from restaurants, pharmacies, grocery retailers, and bulk suppliers, serving **2,000+ monthly active users**.
- **Implemented robust API handling with dio and scalable MVVM architecture with Bloc**, reducing crash reports by **25%** and improving feature delivery speed by **15%**.
- **Integrated Google Maps for precise vendor discovery and paymob for secure payment processing**, supporting **500+ successful transactions per month** with a **99%** payment success rate.

A.S Property App | All Safe | campsite.bio/omarmaamoun6 | March 2024 - April 2024

- **Developing a real estate mobile application** to display properties for sale and rent, including a contact feature for submitting user details.
- **Utilizing Dio for API handling, Bloc for state management, and MVVM architecture**, ensuring scalability and maintainability (currently under development).

The Safe X App | All Safe | play.google.com/store/apps/details?id=com.all_safeeg_trade&hl=ar&gl=US | December 2023 - February 2024

- **Developed a trading application with fingerprint authentication, secure token management (Dio interceptor + Flutter Secure Storage), and MVVM architecture with Bloc state management.**
- **Enhanced user experience by adding Arabic/English localization, interactive charts, and smooth UI animations.**

Black Market: Live Currency Rates | Freelance | play.google.com/store/apps/details?id=com.currencymarket.app&hl=ar&gl=US | August 2023 - October 2023

- Instantly view and compare currency exchange rates from banks and the black market, with real-time updates, Currency Converter: Easily convert currencies using the built-in tool, providing instant conversion results, Bank and Black Market Comparison: Compare exchange rates between banks and the black market, ensuring informed financial decisions.

EDUCATION

Bachelor’s Degree in Computer and Information Sciences | Higher Tech Institute 10th of Ramadan | Minor in Computer Science | 3.3

10th of Ramadan city, Sharqia, Egypt | 2020-2024

- Graduated with Very Good, **Graduation Project:** Very Good

SKILLS

Dart, Flutter, Firebase, Maps, Payment Gateway (Pay mob & Stripe), State Management (Bloc)

Rest Api (Retrofit & Dio & HTTP), Architecture Pattern (MVVM), Clean Architecture, Shared Preference, Flutter Secure Storage, Responsive & Adaptive, Git, GitHub

Arabic, English
